

Mid-Clerkship Feedback (MCF) Policy

- MCF is discussed at orientation and students are instructed to self-reflect prior to MCF on what they feel they are doing well, and what they'd like to work on for the remainder of the rotation.
- Prior to their MCF session student should fill out a copy of the EPA based assessment form themselves so that the MCF session can be tailored to their goals.
- Student should then meet with their attending at the midpoint of the rotation to have an in-person conversation that includes completion of the MCF form by the attending (this is formative and does not factor into the final course grade).
- Students are required to turn in the completed and signed MCF form in order to complete the course.
