

**Student:**

**Grader:**

**EVIDENCE-BASED MEDICINE PROJECT  
GRADING CRITERIA**

**Total Points Possible: 10**

- Area I: Background Data / Medical Context for Question (0 - 2 Points)  
0 – Inadequate  
1 – Presents basis for question incompletely or without full understanding of relation to patient  
2 – Details of patient and basis for search clearly presented
- Area II: Question Addressed (0 - 1 Point)  
0 – Question lacks precision  
1 – Well-focused question / indicates type of question
- Area III: Validity of Study (0 - 2 Points)  
0 – Uses inappropriate guides / inadequate  
1 – Some points missing  
2 – Addresses all primary / secondary guides
- Area IV: Statistical Data (0 - 2 Points)  
0 – Inadequate  
1 – Only most basic data from paper presented  
2 – Detailed description of data or attempt to manipulate data (e.g. calculates relative risk when not given in the article)
- Area V: Understanding of Implications (0 - 2 Points)  
0 – No effort to relate study to patient  
1 – Partially explains relation of study to patient care  
2 – Detailed understanding of role of research in patient care
- Area VI: Overall Effort (0 – 1 Point)  
0 – Appreciable effort and diligence lacking  
1 – Appreciable effort and diligence apparent

(Students must achieve a score of at least 5, to Pass this assignment)

**Did Student Complete the Library Modules?    Yes    No (If no, deduct 1 point)**
