

Dear M1 Students,

On January 9, 2019, you are scheduled to have a learning session on “The Basic Science of Patient Safety,” which is a component of the Vertically Integrated Curriculum on Quality and Patient Safety.

Prior to this session, you will be required to complete three modules related to patient safety which have been developed by the Institute for Healthcare Improvement (IHI). These IHI modules are Patient Safety **PS 101, PS 102 and PS 103** (login instructions on the attachment).

As proof of completion of the 3 modules, please send **one** email to Tina Calcagno ([tcalcagno@luc.edu](mailto:tcalcagno@luc.edu)) with a snapshot of the final page of each module as attachments by January 9, 8:00am.

Dr. Martin White looks forward to the January 9 in-class session which will be an opportunity to apply the content you learned in the IHI modules.

Please note that failure to supply the proof of completion of modules PS 101, PS 102 and PS 103 by January 9 will result in a “Concern” for the TCM 1 Professionalism Competency.

During the PCM1 small group session on January 9, students will view a video on a patient’s perspective of safety and medical error.

Please contact us with any questions.

Martin White, MD  
Assistant Director, Quality and Patient Safety VIC

Theresa Kristopaitis, MD  
Director, Topics in Clinical Medicine
