

To Loyola MS-3 Students:

Welcome to your inpatient pediatric rotation at AMITA St. Alexius Medical Center. The week prior to the start of your rotation, please email Rosario Nolasco at [rosario.nolasco@ascension.org](mailto:rosario.nolasco@ascension.org) (847-755-8709 & Christine VanDuys at [christine.van.duys@ascension.org](mailto:christine.van.duys@ascension.org) to verify your Cerner login is ready to go for your rotation.

We are located at 1555 Barrington Rd., Hoffman Estates, IL 60169. The Women & Children's Hospital is building #5 near the ER. You may park for free in the white multi-level visitor parking garage near the Women & Children's Hospital. After entering the building, if you turn left all the way down the hall, at the end are the "lego people" and you may take the stairs/elevator to the 2<sup>nd</sup> floor Pediatrics and ring the door bell to be let in.

On your first day of your rotation, report to the pediatric floor nurses station by **8:00am**. Ask for the hospitalist office to meet with the physician for the day. The hospitalist on call will provide a brief orientation to the rotation and intro to Cerner. *At this time surgical face mask and eye protection are required for all patients.* These will be provided to you on site. Please return the eye shields at the end of your rotation. The pediatric floor nurses station phone number is 224-299-6902. Please let me know if you have further questions.

Sincerely,

*Dr. Stephan Pichler*
