

Clinical Performance Evaluation

At the end of week 5 or the beginning of week 6, students should take steps to get their Clinical Performance Evaluation completed. Options:

1. Provide your supervising attending with your evaluation QR code

OR

2. Go to myLumen:
 - a. On the left side, select "Request Clinical Performance Review"
 - b. On the new window in the middle, select "Request Review"
 - c. Choose Psychiatry
 - d. Choose your Site
 - e. Follow instructions to choose your Site Director

An email will be sent to your evaluators with a link to click that will access an electronic version of this evaluation attached.

The supervising attending is ultimately responsible for the evaluation. However, the attending is encouraged to consider input from others about the student's clinical performance. If the student has worked with multiple attendings, a composite evaluation may be done.

Alternatively, each attending may fill out a separate evaluation and they will be weighted by the amount of clinical time the student spent with each attending.
